

Cry Me A River

Banshee

Cry me a river
You left me to drown
What do you want from me now?
Cry me a river
Don't you know I can breathe underwater?

They say that light reveals the truth
I saw the real you in the dark

Shapeshifter
Next thing I knew
My head was underwater
We were going under

Cry me a river
You left me to drown
What do you want from me now?
Cry me a river
Don't you know I can breathe underwater?

I didn't think that you were real
You're everything they warned us about

Shapeshifter
Next thing I knew
I'm looking at a monster
God get me the hell out

Cry me a river
You left me to drown
What do you want from me now?
Cry me a river
Don't you know I can breathe underwater?

I swam until my lungs gave in
Found myself on other side of the lake

Then I burned the bridge
It lit my way
Roll up another blunt
Light that shit on the flame

Cry me a river
You left me to drown
What do you want from me now?
Cry me a river
Don't you know I can breathe underwater?

Cry me a river
(Cry me a river and pull me under)
Cry me a river
(Cry me a river and pull me under)
Cry me a river

I'm in love with the water
Follow it all the way home

They say that light reveals the truth
I saw the real you in the dark

Cry me a river
Cry me a river
Cry me a river

Cry me a river
(Cry me a river and pull me under)
Cry me a river
(Cry me a river and pull me under)
Cry me a river

I'm in love with the water
Follow it all the way home
