

Do I Really Scare You?

Banshee

It's been so long since I've seen the sun
Since I fell in love with the moon

So do I really scare you?
Or are you scared of the truth?
Do I simply remind you
Of everything you hate about yourself?

So do I really scare you?
Or are you scared of the truth?
Do I simply remind you
Of everything you hate about yourself?

It's been so long since I've seen the sun
Since I fell in love with the moon
It's been so long since I've had to be strong
Since I don't give a fuck about you

So do I really scare you?
Or are you scared of the truth?
Do I simply remind you
Of everything you hate about yourself?

It's been so long since I've seen the sun
Since I fell in love with the moon
It's been so long since I've had to be strong
Since I don't give a fuck about anyone
It's been so long since I've had to be strong
Since I don't give a fuck about you
It's been so long since I've seen the sun
Since I fell in love with the moon

So do I really scare you?
Or are you scared of the truth?
Do I simply remind you
Of everything you hate about yourself?

So do I really scare you?
So do I really scare you?
Do I simply remind you
Of everything you hate about yourself?

It's been so long since I've seen the sun
Since I don't give a fuck about you
It's been so long since I've had to be strong
Since I fell in love with the moon
It's been so long since I've seen the sun
Since I fell in love with the moon
It's been so long since I've seen the sun
Since I fell in love with the moon
