

Don't Fucking Touch Me

Banshee

I don't wanna fucking do this
But I have no choice
I've been pushed to my withs end
And now I've paid the price
On my skin
I don't wanna die
But I want this to end
You're like stepping on a landmine
I can't live like this

I don't wanna talk about it
I don't ever wanna talk
Please don't talk to me about it
Better yet don't talk at all

In your very last moments of life
I hope you think of me

Don't fucking touch me
Don't fucking touch me
Get the fuck off
I swear I'll kill you
Don't fucking touch me
Don't fucking touch me
Get the fuck off
I swear I'll kill you

I don't wanna talk about it
I don't ever wanna talk
Please don't talk to me about it
Better yet don't talk at all
