

FIX ME

Banshee

Realize that I ain't broken, don't fix me up
I'm not broken, why'd you try?
You're the reason doctors think I'm fucked
When I was born this way
Life was hard enough, I was only growing up
Then, you came along with expectations I couldn't fulfill
And there were so many of you, it was-

I'm not fucking broken, but they tried to fix me
"Just try it," they said
"Just try it with me"
I was fucking born like this
There's nothing you can do to change the fact
I'll never wanna do the things you wanna do with me
Born with a repulsion
I thought that I was broken
Then, you came along and broke me more, so I was certain

Now I fucking know you're just evil
And I never owed you shit
But you made me think I did
And for that, I hope you never sleep again
