

# I WAS NEVER YOURS

Banshee

Today I killed you in my head  
I'm a brand new fucking bitch  
Fuck you and fuck all your friends  
They all know you're a piece of shit  
I used to let men like you get to me  
Now I fill my lungs with weed  
To forget every memory of you  
And fucking breathe  
If life were up to me  
You'd be nothing but a stain  
On the sheets  
You really thought my body's yours  
Bitch that belongs to me  
You hate on all my dreams  
While I make money in my sleep  
You have never owned me  
I am the reason I breathe  
It all makes sense now that I've seen  
I'm everything you could never be  
You have never owned me  
I am the reason I breathe  
I hope you cry  
When my voice gets stuck inside your head  
And never leaves  
You will never own me  
I took back my reality  
My body is mine and my mind is free  
I was never yours and you could never be me
