

Lamb who screams

Banshee

Someone took my voice
But I keep screaming
Someone took my mind
But I stole it back
Someone shook my faith
But I keep praying
Take the ground from under me
And I'll keep running

I never liked calling people sheep
I felt a kinship with Clarice
Take me to the slaughter
I will be the lamb who screams

Someone took my voice
But I keep screaming
Someone took my mind
But I stole it back
Someone shook my faith
But I keep praying
Take the ground from under me
And I'll keep running

I pray for those who are like me
They think we'll go down quietly
Hear my voice in your sleep
I will be the lamb who screams

Someone took my voice
But I keep screaming
Someone took my mind
But I stole it back
Someone shook my faith
But I keep praying
Take the ground from under me
And I'll keep running
