

## LSD

Banshee

Rrah!  
No one can disappoint me like I can  
Pushing and pushing pushing and pushing  
I love to wake up and be me  
But when I look into the mirror it's like I'm on LSD  
Every detail will plague me  
They all fucking plague me  
No one can disappoint me like I can  
One wrong turn  
And I crumble into pieces  
I just beat myself to death

No one can disappoint me like I can  
I will never be enough  
For me  
Ever ever  
I guess that's the just the way I'll be  
Forever ever

I will never be enough  
Break my own heart  
One hundred times a day  
For what

No one can disappoint me like I can  
I will never be enough  
For me  
Ever ever  
I guess that's the just the way I'll be  
Forever ever
