

Narcissus

Banshee

Dead butterflies
We're all dead butterflies
I'mma bleed into the sink with a butterfly knife
Dead for your lies
I feel dead from your lies
I'mma bleed into the sink with a butterfly knife

Fuck with my head like my life don't mean shit
I just woke up from a coma induced by your sins
My heart is locked away it's rotting in a jar
With your dead butterflies
Drained the blood out in your sink
But you're fine
I was just another one for your collection
You wanted to protect my heart so
You could fuck it
I see evil in your eyes and I see nothing else
Narcissus himself rings my death knell

You don't see me you just see what I see in you
You don't love me you just love how I fuck you
Shut me out and then give me attention
I see your game and I don't wanna play it
When you look into my eyes you just see your reflection
When you commit suicide you'll learn your fuckin' lesson

Fuck with my head like my life don't mean shit
I just woke up from a coma induced by your sins
My heart is locked away it's rotting in a jar
With your dead butterflies
Drained the blood out in your sink
But you're fine

Dead butterflies
We're all dead butterflies
I'mma bleed into the sink with a butterfly knife
Dead for your lies
I feel dead from your lies
I'mma bleed into the sink with a butterfly knife
