

## PERFECT ANGEL

Banshee

I'm just a perfect angel  
Everyone says I'm a nice girl  
Don't let my wings distract you  
If you fall, I won't catch you

When I fell from heaven  
I couldn't keep my mouth shut  
They couldn't handle opinions  
And that mine were the right ones

Lucky you, laid eyes on a perfect eleven  
Triple seven  
But soon you'll realize you'll wish you never met me

I'm just a perfect angel  
Everyone says I'm a nice girl  
Don't let my wings distract you  
If you fall, I won't catch you

I'm just a perfect angel  
Nobody thinks I'm real  
And I fell so far from heaven  
But it would choose me over you

When I was banned from heaven  
It didn't hurt at all  
I guess they never deserved me  
I'm just a perfect angel

Look at you, head in the clouds  
But what goes up must come back down  
You thought you found the one  
But you could never handle this at all

I'm just a perfect angel  
Everyone says I'm a nice girl  
Don't let my wings distract you  
If you fall, I won't catch you

I'm just a perfect angel  
Nobody thinks I'm real  
And I fell so far from heaven  
But it would choose me over you

I'm just a perfect angel  
Nobody thinks I'm real  
And I fell so far from heaven  
But it would choose me over you
