Pray to the sea
Fear and loathing

Pray to the moon
I fear nothing

Calling to the moon
Calling to the moon and sea
We're never alone
Listen to the ocean call

Pray to the sea
Fear and loathing
The tides cleanse me
Terrifying beauty

Pray to the moon
I fear nothing
Your gods fear me
Blessed by Aphrodite

I am the storm that will sink your ships and
Cover your ears and all hands on deck
I hold the mirror to souls of sailors
I am the center of their desire (destruction)

Pray to the sea
Fear and loathing
The tides cleanse me
Blessed by Aphrodite (terrifying beauty)

Pray to the moon
I fear nothing
Your gods fear me
Blessed by Aphrodite

Drink the seawater
Go ahead trust me
You'll live forever (you'll drown right here come)
Down under with me

I ride that white whale
You're out there hunting
All night and day as you're self destructing

Fear and loathing
I fear nothing
You all fear me
Blessed by Aphrodite

Pray to the moon
Pray to the sea
Your gods fear me
Blessed by Aphrodite
