

## SWAMP

Banshee

I've been walkin' through this swamp for so long  
Just tryna find my body and they can smell my blood  
They will always fucking haunt me and I don't give a fuck  
I just have to find my body and get out of the mud  
After year, and the nineteenth year  
I couldn't pretend, I think the drugs killed her  
But I can't remember?  
She just wanted anything over them to catch her  
She would rather die than give herself to a monster

I found her, she's floating just above the water  
She lives despite, I can't even remember her or protect her

I've been dead the last eight years  
I'm still here, though, I'm still here  
Better than ever, I swear  
I'm still here, bitch, I'm still here

I'm floating just above the earth  
Voices follow me around the woods but

I don't feel your words, hit me where it hurts  
Buried that shit deep, I'm still coughing up the dirt  
I don't feel your words, hit me where it hurts  
Buried that shit deep, I'm still coughing up the dirt
