

Sword from my rib

Banshee

Don't ask me where I am
I'm not coming back
Don't ask me where I am
I'm not coming back

You make me wanna run far away
There's a place where the fairies sing
Don't ask me where I am
I'm not coming back

Don't ask me where I am
I'm not coming back
Beware the kindest eyes
The lake is deep as the mountain is high

I shaped a sword from my rib
And carved my own world
I would have died in yours
You make me wanna run far away

There's a place where the fairies sing
Don't ask me where I am
I'm not coming back
Don't ask me where I am

I'm not coming back
Every being in these woods knows your face
I prayed 'til your name was erased
I shaped a sword from my rib

And carved my own world
I would have died in yours
You make me wanna run far away
There's a place where the fairies sing

Don't ask me where I am
I'm not coming back
Don't ask me where I am
I'm not coming back

Escaping may cost me everything
They're all gonna say I'm insane
Don't ask me where I am
I'm not coming back

What's the point of your respect if I'm powerless?
I shaped a sword from my rib
This is my world
I'll never die in yours

You make me wanna run far away
There's a place where the fairies sing

Don't ask me where I am
I'm not coming back

Don't ask me where I am

I'm not coming back

Don't ask me where I am
I'm not coming back

Don't ask me where I am
I'm not coming back
