

# Walk without fear

Banshee

Walk without fear  
Howls growing near  
The night is closing in  
Walk without fear

No turning back here  
Say all my prayers and  
The forest is large  
My path is narrow

Running a lifetime from the shadows  
In search of somewhere the light doesn't cast them  
Run, run, run  
Fade into the dark

Walk without fear  
Howls growing near  
The night is closing in  
Walk without fear

No turning back here  
Say all my prayers and  
Walk without fear  
Walk without fear

The night closing in  
I thought I could run where the dark couldn't reach  
The only way out was a world with no glow  
Nothing is pure, not the sky, not the sea  
The only way through is no fear at all

Running through the  
Walk without fear  
Howls growing near

The night is closing in  
Walk without fear  
No turning back here  
Say all my prayers and

Walk without fear  
The shadows appear  
I just look ahead and  
Walk without fear

I'm floating through air  
And nothing can stop me  
Now  
Walk without fear

Walk without fear  
Nothing can stop me now  
I've seen that evil has no bounds  
So my heart must grow

They can cast a shadow  
But they cannot steal the source
