

# Abyss

## Baptism

Flesh and bones together become a person  
Start above they fulfill the (martyrs) scars and blood  
As a new dawn for many, let this be the day  
Of the stopped world, when the heart opened

Hear the call of that pulse, descending to live  
Six prayers from the gates of worlds ending  
Be blessed unto life eternal  
I can feel in my arms  
Follow me, again and again

Into the Abyss of my heart

Flashes from beyond the curtain  
Call from the depths  
Through the dead bodies  
The graves are opened

Worship our Master  
Who's lurking in the shadows  
Sharing thy beauty  
Studying thy magic ablaze

Lights that illuminate my soul  
Call from the depths  
Through the two worlds  
The graves are opened

Worship our Master  
Who's lurking in the shadows  
Sharing thy beauty  
Studying thy magic ablaze
