

# La Di Da

Baracuda

It's been long long time in darkness  
Oh baby, heaven turned to hell  
I've cried a million tears  
A million time in  
Heartbreak hotel

And after all these years of loneliness  
There must be a ray of light  
A little melody that fills a silence  
A dreamless lullaby

It goes  
Ladida  
It goes around the world, around the  
Ladida  
And everybody's singing loud this  
Ladida  
A million miles away from home  
Ladidadida  
One more time it's ladida  
It goes around the world, around the  
Ladida  
And everybody's singing loud this  
Ladida  
A million miles away from home  
Ladidadida

I've been waiting almost every day  
For this melody  
I've been waiting for lifetime baby  
Endlessly  
I've been waiting waiting all my life for this  
Magic melody  
And if you hear me now from outer space babe  
Come and sing with me

It goes  
Ladida  
It goes around the world, around the  
Ladida  
And everybody's singing loud this  
Ladida  
A million miles away from home  
Ladidadida  
One more time it's ladida  
It goes around the world, around the  
Ladida  
And everybody's singing loud this  
Ladida  
A million miles away from home  
Ladidadida
