

# Black Death

Barathrum

Pestilence, plague  
super virus, black death  
evil virus from hell  
rotten corpses everywhere

Black death  
Sharp scythe of death  
swings and reaps  
epidemic black death  
kill, death, black, death

The most grim weapon  
of the black death  
the shining scythe  
of the black doom  
the merciless reaper  
Hail Black Death  
The Black Death - aaargh  
Aaargh, aaargh
