

# I Remember the Feeling

Barbara Lewis

Still remember the feelin', baby

Still remember the thrill, yes I

Still remember your sweet sweet lovin'

and I always will

It's been a long time, baby, since you've been gone away

I still remember your kisses like it was yesterday

I tried to forget you, but I've found it's no use when I...

I missed you so much, baby; I really lost my mind

You've been a long time comin'; now that you're here I'm fine

They said time would change things, but everything's the same a  
nd I...

What good would it do me to find somebody new when I...

(repeat chorus & fade)
