

Fool's Gold

Barbara Mandrell

If it was so good
How did things get so bad
I'm starting to doubt
That what we had
Was ever really love

Tell me how long
Did it go on
Till I felt
Something was wrong
When it was just me and you
That was more than enough for me

But now it's fool's gold
This ring on my finger
Is fool's gold
The love I believed in
Was fool's gold
And now that you've left me it's true
I'm nobody's fool

Somebody told me
Love makes people happy
But now I'm wondering
How can it be
Love has made me sad

Heartaches
Knock on my door
Teardrops
Fall on my floor
And what I thought was my strength
Was the weakest part of me

It's only fool's gold
This ring on my finger
Is fool's gold
The love I believed in
Was fool's gold
And now that you've left me it's true
I'm nobody's fool

It's only fool's gold
This ring on my finger
Is fool's gold
The love I believed in
Was fool's gold
And now that you've left me it's true...
