Time Is Running Out

Barbara Mason

Time is running out
Time is running out
Time is running out
There aren't enough hours in the day
And time is quickly slipping away
Ain't enough hours in the night
People better get your souls
Get them right
Time is running out
Time is running out
Time is running out
You better listen
I know what I'm talking about
People still sinning
Hustler think he's winning
Oh, one day
He'll find that he's way behind time
Time is running out
Know what I'm talking about

People, you better get your soul straight
Make peace with yourselves before it is too late
Hanging on the corner being slick
Is this your way to get to hell quick?
Time is running out
You better listen
Know what I'm talking about
Time is running out
You better listen
You know what I'm talking about
Time is running out
Said I know
You better plead
It's getting short
Ain't enough hours
Ain't enough minutes
