

Ghost

Barbie Almalbis

I saw your ghost
On the radio
You spoke so kind
I was feeling low
(Ooh, ooh)
Still a mystery
How you call to me
In a magazine
In a lucid dream
(Ooh, ooh)

All the words you say sustain me
All my goals are safe when you hold me close
With every breath I take you lead me
You never let go

I saw your ghost
Like a picture show
In my finite mind
To a future I've yet to go
(Ooh, ooh)

All the words you say sustain me
All my bones are safe when you hold me close
With every breath I take you lead me
You never let go
Whoa, whoa

All the words you say sustain me
All my goals are safe when you hold me close
With every breath I take you lead me, you never let go
Whoa, whoa

All the words you say sustain me
All my goals are safe when you hold me close
With every breath I take you lead me
You never let go

I am yours and you are mine
My first [?] to your sattelite
I am yours and you are mine
My constant source to your sattelite
I am yours and you are mine
My soul craving angel light
