

Sister

Barcelona

I heard you're leaving town for good this time
I heard they don't like your attitude
Going without a reason, that's the reason why
I hope you pick up when I call for you

Give up to the night
Get lost in the lights
Just hold your breath and fall in
It ain't wrong, it ain't right
It ain't easy sometimes
But it's everything you wanted

You wanna feel it, desire
(Just know where you are)
If you deny it, it won't make you better
I know, I know
You wanna feel it, desire
(Just know where you are)
I know you'll come back someday
Just tell me that you're okay
Sister
Sister

I heard you're breaking all the party lines
I heard that there is nothing you're afraid of
You're running 'round town trying to free your mind
But that heart got you swinging like a pendulum

Give up to the night
Get lost in the lights
Just hold your breath and fall in
It ain't wrong, it ain't right
It ain't easy sometimes
But it's everything you wanted

You wanna feel it, desire
(Just know where you are)
If you deny it, it won't make you better
I know, I know
You wanna feel it, desire
(Just know where you are)
I know you'll come back someday
Just tell me that you're okay
Sister
Sister
Sister

No matter where you are
I'll keep you in my heart

Let's give up to the night
Get lost in the lights
Let me hold you close, we're falling
It ain't wrong, it ain't right
But that look in your eyes
Like a hundred voices calling

You wanna feel it, desire
(Just know where you are)
If you deny it, it won't make you better
I know, I know
You wanna feel it, desire
(Just know where you are)
I know you'll come back someday
Just tell me that you're okay
