

# Just A Day Away (Forever Tomorrow)

Barclay James Harvest

**D**

There's a beautiful sight

**G**

You know they call it tomorrow

**D**

It's the most beautiful sight

**G**

That you'll ever see

**C**

I know it's only a day away

**G**

And it's always in the future

**D**

But it's that something to look forward to

**G**

That brings me closer to you

**D**

Do you remember the time

**G**

We said we'd love until forever

**D**

'Till all the stars in the sky

**G**

Dropped one by one into the sea

**C**

I know forever's just a day away

**G**

And it's always in the future

**D**

But it's that something to look forward to

**G**

That brings me closer to you

**D G D G**

**C**

I know forever's just a day away

**G**

And it's always in the future

**D**

But it's that something to look forward to

**G**

That brings me closer to you

**D**

When we're together again

**G**

We'll make love until the morning light

**D**

We'll hold each other tight

**G**

Until tomorrow comes

**C**

I know it's only a day away

**G**

But it's always in the future

**D**

This time you know forever I'll stay

**G**

Holding you closer to me

**C**

Oh, I know it's just a day away

**G**

And it's always in the future

**D**

This time you know forever I'll stay

**G**

Holding you closer to me
