

## Loving Is Easy

Barclay James Harvest

Even the bad times are good when you're round  
Darlin', you kiss away all my blues  
Even the hard times are easy to face  
'cause i know that your love will come through.

You light up my flame, then you drive me insane  
There ain't nothing that you cannot do  
Then you grab for my heart, you just tear it apart  
As i shoot all my love into you

Lovin' is easy with both eyes closed  
You know that's the best way to feel it  
Lovin' is easy with both eyes closed  
Just get a hold and watch how it grows.

Now even the bad times are good when you're round  
Darlin', you kiss away all my blues.  
Even the hard times are easy to face  
'cause i know that your love will come through.

You light up my soul, and then fill up the whole  
Of your being, your love, your desire  
Then you grab for my heart you just tear it apart  
As i shoot all my love in your fire

Lovin' is easy ...
