

Next Time

Barenaked Ladies

You can always get it right next time, next time
You can always get it right next time, next time

You can count on me
To mess it up
You can count on me
To let you down again
And in time you'll see
That I'm your only friend

You can always get it right next time, next time
You can always get it right next time, next time

Comfort in community
Obliterated
Given opportunity I hesitated
Even my humility's
Humiliated

You can always get it right next time, next time
You can always get it right next time, next time

When you die they make a list
Of every love you never kissed
Of each regret and each mistake
Every choice you failed to make

You can always get it right next time, next time
You can always get it right next time, next time

It's a shame I have to wait
Until the ending
Everything I've yet to break
Is surely bending
Every vow I ever take
Is just pretending
That this mess I make
Is worth defending

You can always get it right next time, next time
You can always get it right next time, next time
