

S'mores

Barney

You get a graham cracker and you break it two
We got a graham cracker and we break it like you
You get a chunk of chocolate and you put it right there
We got a chunk of chocolate and we do it with flare

You roast a marshmallow, you get it real hot
We roast marshmallows and we like 'em a lot
You smoosh them all together and you take a big bite
Mmm, s'mores, you know it's alright

Cracklety crackers and lickity sweet
Mmm, s'mores, they're so good to eat
Mmm, s'mores, a real camping treat

Do it again, do it again

You get a graham cracker and you break it in two
You get a chunk of chocolate and you do what I do
You roast a marshmallow, you toast it just right
You smoosh them all together and you take a big bite

Cracklety crackers and lickity sweet
Mmm, s'mores, they're so good to eat
Mmm, s'mores, a real camping treat
