

## Concrete

Barrie

Caught up in a moment  
Listing to the left  
Everything we've chosen  
We talk about to death

A peace hero in wartime  
I'm not one to fight  
To let go of completely  
Some cowboy of the mind

How you make your habits?  
How you fill your time?  
Go love yourself, it matters  
You'll love the rest in time

Shape your name and shout it tenderly  
'Cause you know you're pouring concrete  
Block a call and watch it staggering  
With a slow, slowed-down heartbeat

Running like a deer now  
Like an animal  
Like a big prey  
Acting all afraid  
Call it a miracle  
Riding a swayback  
Forgot its own strength  
Buckled under lesser weight

Shape your name and shout it tenderly  
'Cause you know you're pouring concrete  
Block a call and watch it staggering  
With a slow, slowed-down heartbeat
