

# Ghost World

Barrie

Saw you turning back over my shoulder  
Blow a kiss back every time you hold her  
I've been thinking about what to tell you  
Every little thing that you don't do

I call you just to listen  
The way you talk around your breath and  
Drawing on your collar  
Listing every superstition

You woke up leaning on my shoulder  
You push your hair away  
You said I look just like my sister  
I looked the other way  
And I rushed into my head  
But I come to you instead

I call you just to listen  
The way you talk around your breath and  
Drawing on your collar  
Listing every superstition

I call you just to listen  
The way you talk around your breath and  
Drawing on your collar  
Listing every superstition

I call you just to listen  
The way you talk around your breath and  
Drawing on your collar  
Listing every superstition
