

Michigan

Barrie

Oh Michigan, in a heavy fever
The muggy summer sun, I'm a heavy dreamer
I've been sleeping in the roof, I wanna see where I go
I never broke a bone, at least not my own

Dazed and confused, walking over just to talk to you
I've got my hand on my heart, glassing over in your backyard

You never change your clothes cause denim fades so good
Station wagon with the panel wood, Gordon Lightfoot if I could
Your summer love was all you knew
There's nothing left to do but go crazy on you

Dazed and confused, walking over just to talk to you
I've got my hand on my heart, glassing over in your backyard

There's nothing left to do but go crazy on you
Ey ey I'm gonna go crazy on you

Dazed and confused, walking over just to talk to you
I've got my hand on my heart, glassing over in your backyard
Dazed and confused (don't think about you anymore)
Walking over just to talk to you (just to talk to you)
I've got my hand on my heart (don't think about you anymore)
Glassing over in your backyard
