

# Destination

Barry Adamson

Destination  
On a one-way street  
Desperation  
In everyone we meet

When I took the lid off the pizza pie  
I was controlled and then I reached desire  
There was a time when I could love a lesson come  
I get a call and now we take a ride

And I took her hands far away  
And she'll see love in me  
I got to see the seven seas, the voodoo queen in me  
There's such a pain, the throbbing vein  
They'll never let me be  
But I have to say  
I have a way  
The other wait for days

Destination  
On a one-way street  
Separation  
The death of one we knew

When I took the lid off the pizza pie  
I was controlled and then I reached desire  
There was a time when I could love a lesson come  
I took a call and then I take a ride

And I wanna live on the easy side  
I sold my shoe and bought it back online  
There was a time when I could love a tesla gun  
I take a call and then I take a ride
