

The Sun And The Sea

Barry Adamson

"The Sun and the Sea" song overview: Barry Adamson has worked with great mix of people, from Magazine, The Birthday Party, Nick Cave and the Bad Seeds and has also worked on film soundtracks. As a solo artist this is his 10th album, and his first for 4 years or so. He just released the song "The sun and the sea", a very great and emotive track that truly represents the singer's sensitive side.

The Sun and the Sea lyrics

Uh, the storm it came,
But it really only broke me, for a while
Uh, I heard my name and I ... like a child
The sun and the sea, my love endlessly
Bring me your eyes, your plastic little eyes
And I will set you free
Sing, I grew my hair, and I saw my little brother's ... rage

Bring me your dreams, you don't know what it means
And I will set you free
I glide unseen, my ... magazine
Bring me your fears, your ... tears
And I will set you free
The sun and the sea, my love endlessly
Bring me your eyes, your plastic little eyes
And I will set you free.
