

# Turnaround

Barry Adamson

I have to say  
I knew that you would be my baby  
And by the way  
I knew that you might leave me something  
Don't turn around  
The truth will only drive you crazy  
My aching heart  
Now stirring from the sleep we're missing  
What never was  
Will never be again to lose it  
You know you were  
You really shouldn't have to beat up  
Don't turn around  
That move is once again come twisted  
My aching heart  
Has taken quite a muscle in it down

It's okay  
I'm not a stray  
We'll find a way  
We'll be okay  
I'm just astray  
We'll be okay  
We'll find a way

And on the ground  
We slip and slide, we keep from falling  
Then drift away  
From memories we keep recalling  
Don't turn around  
The love you save may be your calling  
Or stay with me  
Cause loneliness has left me darling  
I could be it  
I can't keep on my feet from smiling  
You're standing there  
All beautiful and still be galling  
Don't turn around  
That's back stay will have been compiling  
So stay with me  
Cause you and I will beat the city down  
Woooaah

We'll be okay  
I'm just astray  
We'll find a way  
We'll be okay  
I'm just astray  
We'll find a way  
We'll be okay  
I'm not a stray  
We'll find a way  
We'll be okay  
We'll find a way  
I'm just astray  
But it's okay  
We'll find a way

It'll be okay  
You're not a stray  
I'm just astray  
We'll find a way  
We'll be okay  
I'm not a stray  
We'll find a way  
It'll be okay  
We'll find a way  
I'm just astray  
But it's okay  
We'll find a way  
It'll be okay  
You're not a stray  
I'm just astray  
We'll find a way  
We'll be okay  
I'm not a stray  
We'll find a way
