

This Time

Barry Gibb

This time it's gonna be different
I'm gonna do things my way
Things are gonna be much different this time

This time my love will be stronger
This time my days will be longer
Things are gonna be much different this time

Then I'll go where I must
My love in my hand
With all of your problems you don't need that

This time it's gonna be different
I'm gonna do things my way
Things are gonna be much different this time
Things are gonna be much different this time

Then I'll go where I must
My love in my hand
With all of your problems you don't need that

Ah, this time it's gonna be different
I'm gonna do things my way
Things are gonna be much different this time
Things are gonna be much different this time

This time
This time
This time
