

My King

Barry McGuire

All them kings don't last too long
They just come and go
All them stars shine for a while
Then they lose their glow

(My king)
My king will live forever (live forever)
(My king)
My king will never die (never die)
(My king)
My king is with me every day (every day)
(My king)
My king's a love that won't run dry

All them flowers fade and die
Mountains wear away
All them oceans will run dry
Clouds will turn to clay

(My king)
My king will live forever (live forever)
(My king)
My king will never die (never die)
(My king)
My king is with me every day (every day)
(My king)
My king's a love that won't run dry

If all the love the world could give
Were placed inside my heart
I'd be empty as a hollow moon
That never got its start

(My king)
My king's a love that lives forever (lives forever)
(My king)
My king's a love that never dies (never die)
(My king)
My king is a love that's with me every day (every day)
(My king)
My king's a love that won't run dry (won't run dry)

(My king)
My king will live forever (live forever)
(My king)
My king will never die (never die)
(My king)
My king is with me every day (every day)
(My king)
My king's a love that won't run dry

My king's a love that won't run dry
