

# So Long Stay Well

Barry McGuire

Little boy go ride the pale horse in the park  
Count the golden butterflies and stay out till dawn  
Never mind the grownups who sing their old song  
So long stay well  
Love was here, now it's gone  
Little boy, you're older, keep life while you can  
Happy days and holidays so soon escape man  
Soon you'll be a grownup and sing your old song  
So long stay well  
Love was here, now it's gone  
Little boy, your youth and the summer is done  
You've got the sunset, though you've lost the sun  
Now you are a grownup, so sing your old song  
So long stay well  
Love was here, now it's gone  
Little boy go ride the pale horse in the park  
Count the golden butterflies and stay out till dawn  
Never mind the grownups who sing their old song  
Some other autumn will right all the wrongs  
So long stay well  
Love was here, now it's gone
