

There Is A Peace

Barry McGuire

World's gone insane
People blowin' out their brains
Flyin' off of bridges
Lyin' down in front of trains
Shootin' dope to cope
With life 'cause they can't take it
Gettin' drunk, life always stunk
It's more than what they make it

Ah, have you heard

There is a Peace
The Prince of Peace
And He can ease our troubled minds
He came unashamed
To die for you and me
Now we can come to Him
On bended knees

Meditation mesmerized
Enlightened to the times
Nothin's wrong, nothin's right
Relativity delight
Guilt you say is built
On a concept someone gave you
You choose to lose your conscience
Thinkin' somehow that can save you

Ah, have you heard

There is a Peace
The Prince of Peace
And He can ease our troubled minds
He came unashamed
To die for you and me
Now we can come to Him
On bended knees

There is a Peace
The Prince of Peace
And He can ease our troubled minds
He came unashamed
To die for you and me
Now we can come to Him
On bended knees
We can come to Him on bended knees
