

What Good Would It Do

Barry McGuire

If I could be flown
To the highest heaven
Out beyond the edges of the night
If I could be shown
The secrets of your seven
And touch the living crystal
Of your life

What good would it do
To change my way of living
If everything inside me
Stayed the same
What good would it do
To give you what I'm giving
If giving doesn't take away the pain

Spending my days
Standing right beside you
Bathing in the beauties
Of your name
How sad it would be
If dyin' took my livin'
And I could never see your face again

What good would it do
To change my way of living
If everything inside me
Stayed the same
What good would it do
To give you what I'm giving
If giving doesn't take away the pain

What good would it do
To change my way of living
If everything inside me
Stayed the same
What good would it do
To give you what I'm giving
If giving doesn't take away the pain

What good would it do
