

## For Real Chill

Barry White

Now, it's our time  
You know what I want us to do?  
I want us to settle back  
Come here, come here and relax  
And we'll do all the things that we love to do  
Easy  
Baby, easy  
For real, chill

I remember the first time I saw you  
And I was completely blown away  
I remember the first time I called you  
And what an effect it had on me

I remember what you said when I said to you  
"Is it OK to call you there at home?"  
And you said, "There's no one in my life at the moment"  
I couldn't believe it

For real chill, baby, just be still  
I'm gonna stimulate your body and your, your mind  
For real chill, and show me how it feels  
There's no rush, all we've got is now

The real deal, baby chill  
And let me look into those sexy eyes  
For real chill, and tell me how this feels  
I'm gonna tranquilize your soul with love tonight

The first night we were out together  
That was the first time our lips met  
I-I-I remember feeling so proud of you lady  
Everyone around us were so impressed

The first time we made love together  
You were kind of nervous and shy  
I remember how you looked at me when I touched you there  
It's the same way you're looking now

So for real chill, baby just be still  
And let me do it, I'll do it right  
Lay still, chill, and tell me how tis feels  
I'm gonna saturate your love so good tonight

The real deal, please be still  
And let me look into those sexy eyes  
Be still, chill, and baby let me feel  
Just how wet you're gonna get tonight

I love watching your reaction  
Baby, you're so sexy  
What is this here? Ah, what is this here?  
Something is wet

For real chill, baby just be still  
The real deal, be still

Real chill, just lay back and feel  
For real chill, baby still  
I'm gonna stimulate you tonight

For real chill, and show me how it feels  
Good for us, we've got all night  
The real deal, baby chill  
Oh love

It's gonna be alright  
The real deal, baby chill  
Gonna be this way all night  
Sit back

For real chill, tell me how this feels  
I wont give up, until I get it right  
Real chill, be still
