

# Pneumonia

## Bars and Melody

Let it go let it go babe  
We can take it slow, take it slow babe, woah  
I just hope you notice  
Since I'm without you I'm feeling hopeless, woah

I gave all of me  
I was on my knees babe I gave it all for free  
Give me all of you, oh woah  
I'ma give it all to you babe

What you gon' do when we're running outta time  
Know you're with somebody else but I know deep down that you're mine  
Baby it's nice to know ya  
Now we're getting colder like pneumonia  
Running out of love yea we're running outta time  
Know you're with somebody else but won't you stay with me tonight  
It was nice to hold ya  
And now I'm feeling like I got pneumonia

Get lit forget it  
We got that bag from Reddit  
Didn't come home couldn't get that pen in  
Two ETH Gas I sent it  
Rule book I bent it  
It only gets worse because you let it  
If you're on war it's best to dead it  
Lil weed helps forget it  
I love how she look in my eye  
I found me a keeper no lie  
Leave a message I don't reply  
I'm high, I'll call when I'm fine  
She tell everyone know I'm her guy  
Telling my ex we're combined  
I'm going out of my mind  
I'm wishing away all my time

I gave all of me  
I was on my knees babe I gave it all for free  
Give me all of you, oh woah  
I'ma give it all to you babe

What you gon' do when we're running outta time  
Know you're with somebody else but I know deep down that you're mine  
Baby it's nice to know ya  
And now we're getting colder like pneumonia  
Running out of love yea we're running outta time  
Know you're with somebody else but won't you stay with me tonight  
It was nice to hold ya  
And now I'm feeling like I got pneumonia

I got loud, babe this shit the best in town  
She want CBD, what you mean, get out my house  
Flip that frown, take you to space, the milky way  
Yeah hold your crown  
Said your names my favourite noun

What you gon' do when we're running outta time

Know you're with somebody else but I know deep down that you're mine  
Baby it's nice to know ya  
And now we're getting colder like pneumonia  
Running out of love yea we're running outta time  
Know you're with somebody else but won't you stay with me tonight  
It was nice to hold ya  
And now I'm feeling like I got pneumonia

Feeling like I got pneumonia
