

Sadboi

Bars and Melody

Yeah, I'm a sadboi
Yeah, I'm a sadboi

Ain't you tired of being sadboi
Turning up the music, just to drown mum and dad boi
Heard you gotta be a man boi
So we grow up too fast
Just to make you understand boi
Cause we're all lost in a sadboi generation

We don't even have a choice
Gettin' by in a sadboi generation
We don't even have a choice
Gettin' high in a sadboi generation
There ain't no amount of therapy
That can cover up the enemy
We don't even have a choice
Cause we're all lost in a sadboi generation

Yeah, I'm a sadboi
Doesn't take alot to get me mad boi
Hide behind my phone, scream don't wanna be seen
Guess they'll never understand a sad boi
I'm feeling lost, I ain't sleeping till the dawn
Wake up the next evening, act like nothings wrong
Can't think, I can't sleep, only thing I eat is time
Never had no-one's back, cause no-one ever had mine
Can't sleep with my eyes closed
And my eyes open, I can't focus
I've been feeling so lost and so hopeless
I don't know where to go and I'm kind of hoping
Someone can show me how to love
Even though I'm young come pick me up
I'm a sadboi, yeah

We don't even have a choice
Gettin' by in a sadboi generation
We don't even have a choice
Gettin' high in a sadboi generation
Tell us we don't have a voice
There ain't no amount of therapy
That can cover up the enemy
We don't even have a choice
Cause we're all lost in a sadboi generation

Laying in our room, we don't know where the day went
Wish we had control of the situation
Maybe we're just living in a stimulation, yeah
We got high hopes but low expectations
We just wanna help not an explanation
Too young to die of californication

Gettin' by in a sadboi generation
We don't even have a choice
Gettin' high in a sadboi generation

Gettin' high in a sadboi generation

Gettin' high in a sadboi generation
