

Turn It Up

Bars and Melody

Turn it up
Turn it up
Turn it up
Let's turn it up

I'll tell you about the engine behind this brain
It's like a 747 can't catch this plane
We can't help the way we feel
Our hearts are real easy to steal
As the sun grows old our timeline shrinks
The hills are screaming in fear of him
We will not hide inside our graves
We will fight right through the pain
On the edge of the oblivion the path is dark
But we can't hold back our racing heart
Though the odds are against us, we won't give in
Forever we are one as a legion from within

You need to know
That you've got control
It's your time to show
It's your time to grow
You need to know
That you've got control
It's your time to show...
It's your time to

Turn it up (up, up)
Turn it up (up, up)
Turn it up (up, up)
Let's turn it up (turn it up)
Turn it up (up, up)
Turn it up (up, up)
Turn it up (up, up)
Let's turn it up (turn it up)

We won't ever stop, we know the future's brighter
We can't let it drop so turn the music louder

Turn it up (up, up)
Turn it up (up, up)
Turn it up (up, up)
Let's turn it up

Turn it up (up, up)
Turn it up (up, up)

I was praying to the heavens "Please take the pain away"
But I didn't hear a thing, wind made my screams fade
Take me to the place where you feel free
If you let go come and jump with me
We will not fall and take a stand
We shall fight until the end
Hold me now, I am terribly afraid
I can't help but give a smile every time you say my name

You need to know

That you've got control
It's your time to show
It's your time to grow
You need to know
That you've got control
It's your time to show...
It's your time to

Turn it up (up, up)
Turn it up (up, up)
Turn it up (up, up)
Let's turn it up (turn it up)
Turn it up (up, up)
Turn it up (up, up)
Turn it up (up, up)
Let's turn it up (turn it up)

We won't ever stop
We can't let it drop
We won't ever stop
So turn the music louder

Turn it up (up, up)
Turn it up (up, up)
Turn it up (up, up)
Let's turn it up (turn it up)

Turn it up (up, up)
Turn it up (up, up)
Turn it up (up, up)
Let's turn it up (turn it up)

We won't ever stop, we know the future's brighter
We can't let it drop so turn the music louder

Turn it up (up, up)
Turn it up (up, up)
Turn it up (up, up)
Let's turn it up
