

## Calvin Harris

Bart Baker

I see you looking, looking from across the room  
Our time is ticking, tell me what you wanna do  
Baby, there's something, something 'bout the way you move  
All I want is you

Girl, there's something, something 'bout the way you move  
Got me thinking what I wanna do to you  
Girl, there's something, something 'bout the way you move  
'Bout the way you, 'bout the way you move

'Bout the way you, 'bout the way you move  
'Bout the way you, 'bout the way you move  
'Bout the way you, 'bout the way you move  
'Bout the way you, 'bout the way you move

The song's 'bout nothing, just like every DJ [?]  
Our time is ticking, tell me what you wanna do  
Baby, there's something, something 'bout the way you move  
You got me thinking 'bout cliché things we can do  
All I want is you

Girl, there's something, something 'bout the way you move  
Got me thinking what I wanna do to you  
Girl, there's something, something 'bout the way you move  
'Bout the way you, 'bout the way you move

'Bout the way you, 'bout the way you move  
'Bout the way you, 'bout the way you move  
'Bout the way you, 'bout the way you move  
'Bout the way you, 'bout the way you move

Girl, there's something, something 'bout the way you move  
Got me thinking what I wanna do to you  
Girl, there's something, something 'bout the way you move  
'Bout the way you, 'bout the way you move

'Bout the way you, 'bout the way you move  
'Bout the way you, 'bout the way you move  
'Bout the way you, 'bout the way you move  
'Bout the way you, 'bout the way you move
