

## Back Down

Bart Crow

Well, I ain't blind, babe, I just can't see  
What it is your tryin' to do to me  
Hell, it's jealousy  
Right to the core  
Now, you think you've got me all figured out  
Well, let me tell you I ain't down for the count  
Baby, wait and see  
Baby, wait and see

'Cause I didn't come this far just to back down  
My last dream's about to come unwound  
No, I didn't come this far just to back down  
When Judgement Day finally rolls around  
You'll be lookin' up baby  
And I won't look down

Push or shovin', babe, I turn away  
'Cause peace and love is the way I am  
But it's not for you  
It's not the way that you are  
Tell me, when your final judgement comes  
Do you think you're gonna be proud of  
What you've done to me  
Ah, baby, wait and see

'Cause I didn't come this far just to back down  
My last dream's about to come unwound  
No, I didn't come this far just to back down  
When Judgement Day finally rolls around  
You'll be lookin' up baby  
And I won't look down
