

# Shadow Against The Wall

Bart Crow

Got the flowers in your hair  
Just like the roses in your heart  
Nothing can keep you down  
Tears won't break your heart

Your smile it glows so wild  
Just like the pretty in your eyes  
Nothin can keep you down  
Nothin can hold you down

And it breaks our hearts  
To watch you walk through hell  
And it breaks our hearts  
To know your pain inside

But you'll never tell  
Your an inspiration to all  
Hearts breaking but they don't fall  
They can't hold you down  
Little shadow against the wall

Life's been good to you  
With the baby in your arm  
But this pain can't bring you down  
And it can't steal your charm

Cause it's just not in your cards  
To fall down on your knees  
As your crying out to God  
Somebody save me please

And it breaks our hearts  
To watch you walk through hell  
And it breaks our hearts  
To know your pain inside

But you'll never tell  
Your an inspiration to all  
Hearts breaking but they don't fall  
They can't hold you down  
Little shadow against the wall

And it breaks our hearts  
To watch you walk through hell  
And it breaks our hearts  
To know your pain inside

But you'll never tell  
Your an inspiration to all  
Hearts breaking but they don't fall  
They can't hold you down  
Little shadow against the wall
