

# Donk Of The Day

Bas

Every day, everyday, everyday, everyday  
I been chasing the truth  
But oooh I've been waiting for you  
Ooooh I've been waiting for you

And I was like Looord  
And she was like "boooy you better be smart with your ways"  
I turn to Mike Shaw  
And he was like dawg "I think she got the Donk Of The Day"  
Cause girl you got the Donk Of The Day  
That gotta be the donk of the day  
You know you got the donk of the day  
That gotta be it

Never had a day worth planning  
Cause every damn day is outlandish  
I holla'd at Wave Bandana  
My nigga is so high outlandish  
I said we can hit the hood spot  
My niggas do spray they canvas  
Or we can hit the good spot  
But I'm a have to change appearance  
I went to buy a cardigan  
I seen you at the mall and then  
I could re-call again, I was on youuu and  
My nigga was on your friend  
They been steady two years now  
But I never called again  
And you ain't never fall off  
So can I get on again  
Breeze through the city baby  
You would think I'm on to win  
I think I was born to spend  
I heard you was dancing girl  
I think you were born to bend  
I think I was born, born again when I found that pen mothafuckin' right

Never had a day worth planning  
Cause every damn day is outlandish  
I'm going over sees outlandish  
A nigga so high outlandish  
Man I'm like a fly on the wall  
And these four walls heard it all  
I could hit a fee line in your voice  
But them words won't hurt at all  
Cause these broads gone leave til the morning  
Champagne form bubbles in my bong  
All I need is the love of my crew  
Fuck you, my borough know I'm on  
Never been to work with a briefcase  
But I'm still in each state  
So my Momma text, and said, "be safe"  
Saw one from my ex it said "be great"  
First thought like she fake  
Text back like "preciate"

Girl be brave  
What you want hundred replays  
This shit is dead like Enyce  
Dear Nefertiti  
I'm sure your'e a Goddess or  
My shades are 3D  
Cause damn they look large, them titties

She always on them up is when they go down  
All she know is turn up girl slow down  
Slow down, girl slow down  
Body type Mya, face more Aaliyah  
Stack, used to run track  
Til she tore her knee up  
Me I'm from Queens  
And we up, my last shit crack  
Bitch I'm back with the re-up  
Already caught the vibes  
But I don't got the time  
Girl I'm saying you should know  
She said, "bottom line I be lying if I said I was surprised when you said yo  
u had to go  
Met her out in France and her ass meaner  
In them Euro hotels with the Ass Cleaners  
Long ways from them days when we had peanuts  
Looked back we just laugh like damn we up  
She said let's go  
Back to the bathroom to do some blow, Woah  
Said you was sprinting, you really shouldn't do that blow no more  
Said I do what I do, it ain't enough for a vote  
What's it to you, you don't know how I cope  
Shit I done seen it's like ether to me  
You don't know how I roll so you speechless to me  
You niggas, Niggas don't get it you got it so good  
I'm developing penis envy, Pause  
No Venus in me, give a fuck if you niggas from Mars  
You need to chill  
I see the Coke in your jaw  
You getting too aggy  
You still got about half a gram in that baggy  
I'm gone take care of this tab  
And I'll probably just hail you a cabby
