

# Fallin'

Bas

Are you enticed? Well, try your luck like shootin' dice  
A hockey puck, my heart is ice, I go to heights  
Seldom seen and tell the truth  
Not sellin' dreams, I been there too  
I made it through  
I could've screamed, I play the mute  
Relay my truth, you play a stream  
I don't recoup, I never stoop  
My art is gold, my heart is more  
This industry like carnivores and cannibals and herbivores  
Fuck it, niggas eating anything  
Trying to sever you from the better you  
I just bought my bitch a wedding ring  
Money, my wife, and we don't fight  
Yeah, cheers to new beginnings  
Nigga, that's life, I run the red lights, bitch, I'm a proven winner  
Dealer man, pull up, run a new pill up, I had two for dinner  
I had Wheaties for breakfast  
Bassy a champion, baby, tell me again, who the best was?  
Wake up and said, "Fuck the world", my new bitch fuckin' on me  
I put my dirt in my verses, so they got nothin' on me  
You hearin' something that's otherwise from other guys  
And you believe it, you none the wiser

Show up, show sold out  
Go out, I don't need no ID  
So I, so slow, I  
Fallin'  
Don't know how low I be  
Show up, show sold out  
Go out, I don't need no ID  
So I, so slow, I  
Fallin'  
Don't know how low I be

I let Jah know not to take a shit where he eat  
And you, niggas, still ain't learn that  
Do what you can for who you can  
If you can't, you can't  
You still try, learn that

Cut the tension with a Ginsu Knife  
It get hard to handle, but it get you right  
Priceless lessons falling to me, perfect blessings  
Read intentions clear, I'm never second guessing  
I'm ready, born to ball  
My chick is ready too  
She dressing for the ball  
Giuseppe on her shoes  
It's scary where we grew up  
Only a few of us privy to life  
I used to think that we the ones livin' it right

Show up, show sold out  
Go out, I don't need no ID  
So I, so slow, I  
Fallin'

Don't know how low I be  
Show up, show sold out  
Go out, I don't need no ID  
So I, so slow, I  
Fallin'  
Don't know how low I be
