

Ironie - I was just looking for a lighter but I found you  
Now let's go and fuck the night up (the night up, the night up)  
Let's go and fuck the night up (the night up, the night up)  
Let's go and fuck the night up

Ain't no bruise if you sticking moves  
As far as I see it, I mean it  
Calm a spade a spader, a dog a dog shit, yea ho I be it  
Uh, I got green on my mind  
A fiend, I need to get mine  
She say your dough my glow a little greener than mine  
But your soul ain't cleaner than mine  
If you looking for a diamond, gotta find it  
Go deep in the mines  
And my game fucked with a bitch brain  
I can go so deep in her mind  
Couldn't keep her, I'm fine, nothing lasts forever  
My whole life patched together  
And life ain't a fucking joke  
But we smoke, fuck and still laugh together  
I said cool it girl, you know life is short  
Uh, or whatever  
You say you wrong boy, see mind in a long war, since forever

Ironie - I was just looking for a lighter but I found you  
Now let's go and fuck the night up (the night up, the night up)  
Let's go and fuck the night up (the night up, the night up)  
Let's go and fuck the night up
