No Reggie, No Theus  
My niggas the G'est  
Don't shit come between us  
No money, No hoes  
Don't shit come between us  
How we play dirty but step out the cleanest?  
G shit bitch learn the meaning  
From here to Medina, I bag all the model chics  
Call em Athena, cause they are some Godesses  
My politics don't got no policies just livin life everyday no apologies  
Apologies for the delay I was up in the stars rollin up on astrology  
Economies in disarray but a couple mixtapes gon put me in ecology  
Ecology?  
Ecology, that's green nigga  
Global Warming, that's me nigga  
Heatin up, They ain't keepin up  
Had a taste, I ain't eat enough

If the 44's rung, Hemdi's the one  
If them hoes open, I'll leave with them  
One

You in a hot air balloon  
You could be around the moon  
You eat a pound of the shrooms  
You'll never be higher than I am!  
You could mook all of the keef  
You could blow all of the schneef  
You go as high as you reach  
You'll never be higher than I am!  
You'll never be higher than I am! (so high)  
You'll never be higher than I am! (so blown)  
You'll never be higher than I am! (I'm Mooked)  
You'll never be higher than I am! (I'm Mooked)

I'm Super Mooked

Should I tell my story?  
Or should I show my scars?  
This is Hemdi & Bas, this is avant garde  
Niggas swear they smart, till they ass get snatched thru the fog  
I got a couple bitches think they slick, but far from espionage  
Me and 3 bitches, that's just a collage  
I'm an artist of a rare kind, you just a facade  
The quiet sun, metamorphosis, I have just evolved  
My horizon bright and I box thru life like Cus was involved  
Muhammad Ali, the Iron Mike-ness  
If I lay somethin down it's war time nigga no women no kids that kill is righteous  
Got blood on my glasses, give me a second to wipe it  
Let's proceed when it touch white folks I guess that's when it becomes a crisis  
But we still in the ghetto, where we chase money and hoes  
The OG's say " Thank YOU, Young fella. I guess nobody had the courage to write this"  
And we drive foreign cars, But the evil drives us

And we ride on each other so easy  
Cause the demons ride us

You in a hot air balloon  
You could be around the moon  
You eat a pound of the shrooms  
You'll never be higher than I am!  
You could mook all of the keef  
You could blow all of the schneef  
You go as high as you reach  
You'll never be higher than I am!
