

San Junipero

Bas

Take it to heart
I got some sort of disease, I combat with the cure
I'm like, "How hard could it be?"
I seen my father be pure, the apple is far from the tree
The seed is lacking in qualities seen in the host
Look in the mirror, I'm seeing a ghost
Trust my appearance, I'm veering, the road is appealing
Shorty hit out said you figured out my mind state
We should sit down, help me pin down, get my mind straight
But I came up with gorillas, we some primates
Put a leg out when you get out of the I8
Fishing with some live bait and libations
See you growing irate, what about patience?
Poker face never take, about face it
If you and I face it, lay it out

Lay it out, tear it down to nothing
Roll it up to belong to something
Lay it out till the thoughts run sober (Lay it out)
You carry me to the dark and broken
Lately, I can tell we're going
Nowhere till it takes ahold
Wherever we go, wherever I lie

Gotta make do, I'm deep in
Feeling like glue, I'm sinking
Gotta regroup, gotta improve my thinking
Gotta make moves, I gotta make moves
I'm getting crushed under the weight of people you love
Is like a drug addiction, I'm knee-deep in the buzz
I seen peaks and valleys and sheened peaks I battle
With these scenes of peril, I hold on to love like San Junipero
San Junipero
Hold on to love like San Junipero
San Junipero, I hold on to—
Gotta make do, I'm deep in
Feeling like glue, I'm sinking
Gotta regroup, gotta improve my thinking
Gotta make moves, I gotta make moves and lay it out

Lay it out, tear it down to nothing
Roll it up to belong to something
Lay it out till the thoughts run sober (Lay it out)
(Lay it out, lay it out)
You carry me to the dark and broken
Lately, I can tell we're going
Nowhere till it takes ahold
Wherever we go, wherever I lie

Oh, there's something on my mind
My mind keeps telling me, "Go there"
Oh, there's something on my mind
My mind keeps telling me—
Oh, there's something on my mind
My mind keeps telling me, "Go there"
Oh, there's something on my mind
My mind keeps telling me—
