

You know better, you know better  
You know better, you know better  
You know better, you know better  
You know better, you know better  
You know better, you know better  
You know better, you know better

We should go and make a baby  
You been patient, you deserve me on the daily  
You ain't really with the begging  
You know better than be talking to me crazy  
We should go and make a baby  
You been patient, you deserve me on the daily  
You ain't really with the begging  
You know better than be talking to me crazy

You know better, you know better  
You know better, you know better

'Cause you know this, yeah you know this  
I ain't one for being bogus  
Got this weight up on my shoulders  
Girl you treat me like a bogey  
I've been stressed out, keep me stress free  
You've been waiting for me so long  
Couple days I had to prolong  
Hold on, hold on

You know better, you know better  
You know better, you know better

You know better, you know better  
You know better, you know better
