

Sometimes

Bas

Softly

Wanna feel your hands softly
Wanna hear your hands softly
Wanna feel your hands softly

Push up on it, saying my name
Milk and honey, how I wanna know
Make me want it, Mill to Marais
Say you'll call in, girl, I wanna know
Push up on it, saying my name
Milk and honey, how I wanna know
Make me want it, Mill to Marais
Say you'll call in, how I wanna-

Softly

Wanna feel your hands softly
Wanna feel your hands softly
Wanna feel your hands softly

Girl, I rate you, don't be so hasty
Slow down, wait, please, don't outpace me
Girl, I thank you, so free and crazy
That's what made you and that's what changed me
We're a mess, but the shit's get us going
Light the cigarette
On your lips when you rolling, I see intellect
Behind the glitz that you showing, I won't interject
Don't wanna miss any moment
If she fine, if shorty a dime
She can slide with me, girl, you are a star to me
Drop top we go ride the streets, I need you beside of me
I curate the vibe for you, I brought you to my city
Still you acting wild as shit, all this animosity
On IG, you fake deep, chakras and astrologies
I-R-L, you can't keep up with the velocity
Hold on, don't you lose control, I'm the one you gotta keep

I see you for your intangible qualities, girl, you quality
I see you for your intangible qualities, girl, you quality

Push up on it, saying my name
Milk and honey, how I wanna know
Make me want it, Mill to Marais
Say you'll call in, girl, I wanna know
Push up on it, saying my name
Milk and honey, I just wanna-
Make you want it, Mill to Marais
Say you'll call in, how I wanna-

Softly

Wanna feel your hands softly
Wanna feel your hands softly
Wanna feel your hands softly
